

GYROSCOPIC MIXERS

M400

TECHNICAL FEATURES

Maximum bucket dimensions	Ø 380 mm × H 480 mm
Minimum can height	90 mm
Multiple cans adapter	Upon request
Maximum loading capacity	35 kg
Bucket clamping	Automatic with extractable loading plate
Machine closing	Rolling gate with interlock
Mixing motor	Three-phase motor driven by inverter, power up to 1,1 kW
Sense of rotation	Clockwise and counterclockwise with reversal of rotation at half time of mixing cycle
Can repositioning	Automatic
Gyroscopic ratio	1 ÷ 2
Mixing speed	3 speeds (100-140-180 rpm) automatically selected according to the height of the can
Timer for mixing cycle	Included
Protection Level	IP 32
Emergency stop	Included
Weight	192 kg
Overall dimensions	W 783 × D 806 × H 1.058 mm
Noise level	< 80 db (A), measured according to DIN 45.635 regulation (no load)
Power supply	230/115 V AC 50/60 Hz
